

FitBuddy - AI Fitness Plan Generator using Gemini Models

Brainstorming & Ideation

Date	29 September 2026	Team ID	SWTID-2026-1726
Project Name	FitBuddy - AI Fitness Plan Generator using Gemini Models	Maximum Marks	3 Marks
Team Members	Raaghavjee A, Ramya S, Shalani M, Monika S, Nithya Shree D	Technology Focus	FastAPI, Google Gemini, SQLite

Step 1: Brainstorm and Idea Listing

The team generated solution ideas around the user need for accessible, personalized and adaptable fitness guidance. Ideas were grouped without judging them during the initial brainstorming stage.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	Raaghavjee A	Generate personalized 7-day workout plans based on user goal and workout intensity.	AI Fitness Planning	1
2	Ramya S	Provide nutrition tips alongside the generated workout plan.	Nutrition Support	2
3	Shalani M	Allow users to submit feedback and regenerate/update the workout plan.	Personalization & Feedback	3
4	Monika S	Store user profiles and plans so the application can maintain continuity.	Data Persistence	4
5	Nithya Shree D	Provide a simple dashboard to review generated plans and user records.	User/Admin Experience	5

Step 2: Idea Prioritization

The grouped ideas were assessed using feasibility and importance. The selected scope forms one integrated FitBuddy solution rather than separate standalone features.

Group	Final Idea / Theme	Feasibility	Importance	Priority	Selected
1	AI-generated personalized 7-day workout plan based on goal and intensity.	High	High	1	Yes
2	Nutrition tips generated with Gemini alongside the workout plan.	High	High	2	Yes
3	Feedback-based workout plan update for iterative personalization.	Medium	High	3	Yes
4	SQLite persistence for user profile and plan records.	High	Medium	4	Yes
5	Dashboard for reviewing users and generated records.	High	Medium	5	Yes

Final Concept: FitBuddy is an AI-powered fitness web application combining personalized workout generation, nutrition guidance, feedback-driven plan updates, persistent user data, and a dashboard.
